

Secure the Subscription Admin Setting

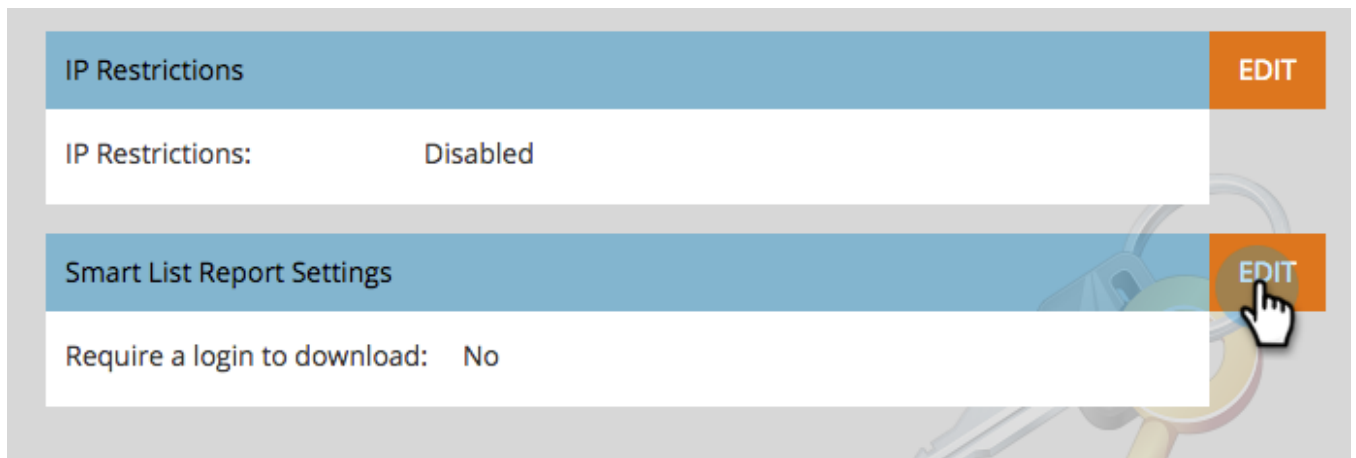

Admin Permissions Required

An admin can choose to require login in order to view a report.

1. Click **Admin**, and then **Login Settings**.

2. Click **Edit** for Smart List Report Settings.

3. Select **Yes** to require a login to download reports.

Edit Smart List Report Settings

Define if recipients need to login to download the report

Require a login to download:

Yes

Warning: Requiring a login will prevent any non-Marketo email address from receiving reports.

CANCEL

SAVE

Caution

When a login is required to download reports, if you don't have access to Marketo, you will not receive smart list report emails. This applies to existing and future subscriptions.
