The table below displays the latest versions.

Note

These versions work for both on-premise and online versions of Dynamics.

Version	Release Date	Notes
4.0.0.24	8/22/18	Added support for out-of-box qualify lead to contact process for Microsoft Dynamics Version 9.x.
4.0.0.23	6/27/18	Bug fix: Business Process Error while trying to install the Marketo Solutions for Dynamics 2013.
4.0.0.22	9/29/17	Bug fix: Internal revision.

4.0.0.21	11/9/16	Bug fix: The plugin did not subscribe to events that capture the state change of the custom object. This fix is specific to Dynamics CRM On Premise 2011.
4.0.0.20	7/22/16	Bug fix: Updates of opportunity contact role weren't being captured completely.
4.0.0.19	6/28/16	Bug fix: An unnecessary update transaction on the customeropportunityrole in the marketo log was noted when the opportunity was created. Bug fix: An extra delete transaction was logged when deleting the customeropportunityrole entity.
4.0.0.18	5/31/16	Bug fix: Made the update and delete of custom objects asynchronous.
4.0.0.17	4/8/16	Bug fix: When the lead had a sync filter set to NO, and the opportunity and contact didn't have a sync filter, the Create Log wasn't generated for the contact and opportunity when the lead was qualified.
4.0.0.16	3/29/16	Bug fix: An Assign Event was logged when the sync filter was turned off.
4.0.0.15	3/3/16	Bug fix: Customer couldn't create a lead in CRM because the login user didn't have Marketo Config permission.
4.0.0.14	1/18/16	Bug fix: Created access limits for normal Dynamics users to address security concerns.
4.0.0.13	12/30/15	Bug fix: Updates in Dynamics were not syncing to Marketo for steps and images.
4.0.0.12	11/12/15	Bug fix: Lead records were syncing to Marketo when sync filter was set to false.
