

Apply Input Masking to a Field in a Form

You can restrict input from your visitor using an input mask. For example, you may want visitors to enter phone numbers only in a specific format.

1. Go to **Marketing Activities**.

2. Select your form and click **Edit Form**.

5. Enter your input mask and click **Save**.

Mask Phone Number Input

Mask:

Use 9 to mean any number
Use a to mean any letter
Use * to be either one

Examples:
(999) 999 - 9999
aaa - 999 - ***

CANCEL SAVE

Note

Pay attention to the masking rules. You can restrict input to numbers, letters, both, and/or even limit the number of characters entered.

6. Click **Finish**.

Check it out! Now you're asking the visitor to enter numbers in a specific format.

First Name:

Last Name:

Email Address: *

Phone Number:

Fields marked with a * are mandatory.

Register

Note

The field may not display pre-defined regions as shown in the image above. It may appear blank until the visitor starts entering numbers, which will then automatically adhere to the input format you defined for the field.

Pretty cool, huh?
