

Change your Password Security Settings

Control the password policy of your subscription. Here's how.

Admin Permissions Required

1. Under **Admin**, click **Login Settings**.

2. Under **Security Settings**, click **Edit**.

Security Settings

EDIT

Minimum Length: 8 characters

lowercase or UPPERCASE: ✓

Numb3r: ✓

MixED CaSe: ✓

Special Ch@racter: ✓

Expiration: 90 days

Inactive Session Timeout: 4 hours

3. Select a **Template**. For advanced options, click the **Advanced** drop-down.

Definition

A template is just a pre-built configuration. Standard is good. High Security is the strongest. Custom lets you make your own.

Tip

In **Custom**, check the boxes to indicate which characteristics you want users to include when they create passwords.

4. Set the **Expiration**. This feature automatically requires users to reset their passwords after a certain length of time. This includes the Admin user as well.

Caution

Existing users will not be notified of the changes. Set **Expiration** to 30 days first to ensure everyone has updated to the new settings, then change this back to your original cadence.
