

Slack LaunchPoint

Slack 2

- Marketo Slack CRM API
- Marketo Slack

Admin Permissions Required

Prerequisites

Slack support@marketo.com

1. LaunchPoint

The screenshot shows the Slack Admin interface. On the left, the 'Admin...' sidebar is expanded to 'Web Services', where 'LaunchPoint' is highlighted. On the right, the 'Installed Services' table is visible, listing various services and their types.

Name	Type	Used by
Campaigns_Internal_All	Custom	0
SlackTest	Slack	0
SlackPM	Slack	0
Wrong Cred	Slack	0
Marketo Wrong Cred	Slack	0

2. Slack Slack

New Service ✕

Display Name: * SlackTest

Settings

- Custom 
- Facebook Custom Audiences
- Facebook Lead Ads
- Slack 

3. Slack Slack

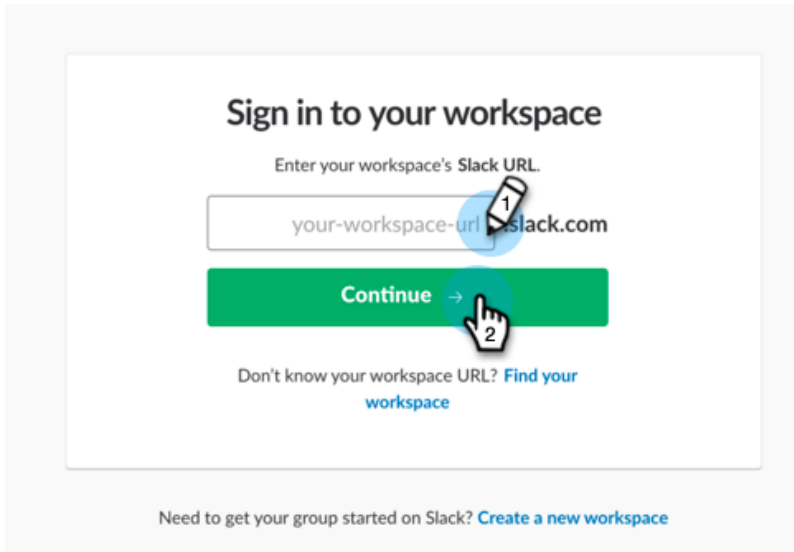

Slack Configuration ✕

Slack Account: 

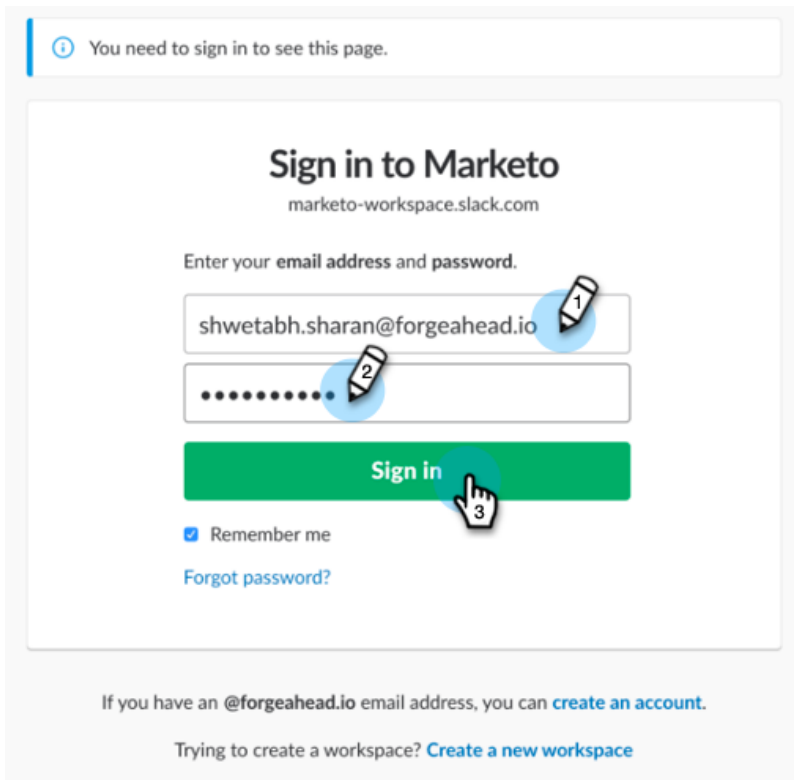

Slack Notification  No

Interesting Moments Yes No

4. Slack URL

5. Slack

6. Marketo

On Marketo, Marketo would like to:

Confirm your identity on Marketo

Post to

#general

Add commands to Marketo

Marketo will be able to add commands to the message input box. Typing a command in a channel allows this app to take action outside of Slack and optionally post back to that channel.

View email addresses of people on your workspace

Marketo will be able to view the email addresses of your Slack workspace's members.

Send messages as Marketo

Marketo will be able to send messages to Marketo.

Modify emoji reactions

⚠ Access your workspace's profile information

Marketo APP 9:23 PM

Salesforce Sync Error: Invalid Credentials

Why: Marketo is unable to log into your Salesforce account because the username/password credentials no longer work.

Error details: Invalid username, password, security token; or user locked out.

What to do now?

Update the credentials and try again.
