

Shared Templates

How to Share a Template

If you're using one of our team accounts, all of your templates are still private by default. Click the green **Share** button at the top of your template to share it with the rest of your team.

How to Find Shared Templates

Templates that have been shared with you will show up under the **Team Templates** header on the left hand side of the Templates page.

Note

Teams are only available for Premium users.
