

# Approve/Unapprove a Revenue Model

You may only have one approved model at any given time.

## FYI

Marketo is now standardizing language across all subscriptions, so you may see lead/leads in your subscription and person/people in docs.marketo.com. These terms mean the same thing; it does not affect article instructions. There are some other changes, too. [Learn more.](#)

3. From the **Model Actions** menu, choose **Approve Model**.

4. A dialog appears to confirm your choice. Click **Approve**.

Your model is now live!

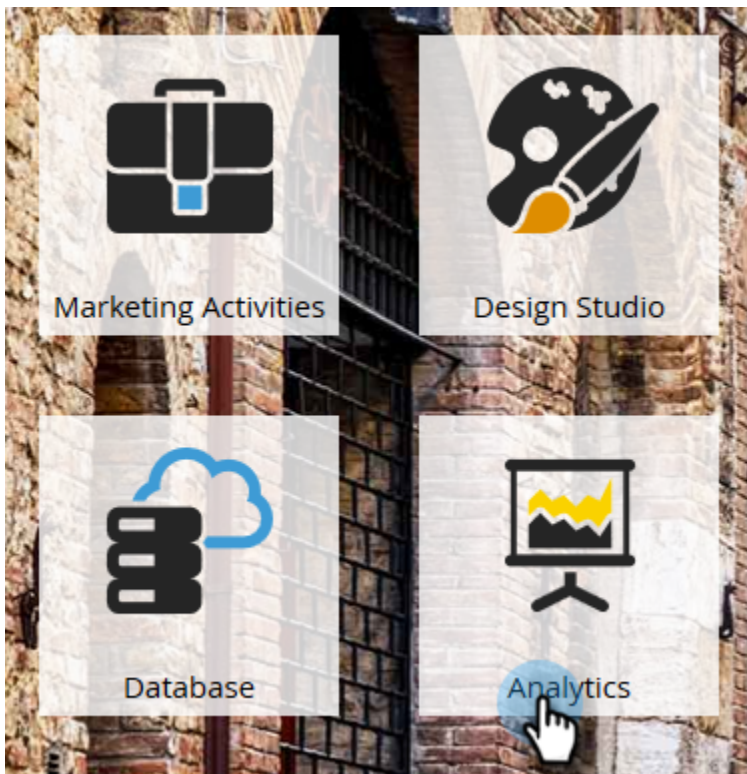

## Unapprove

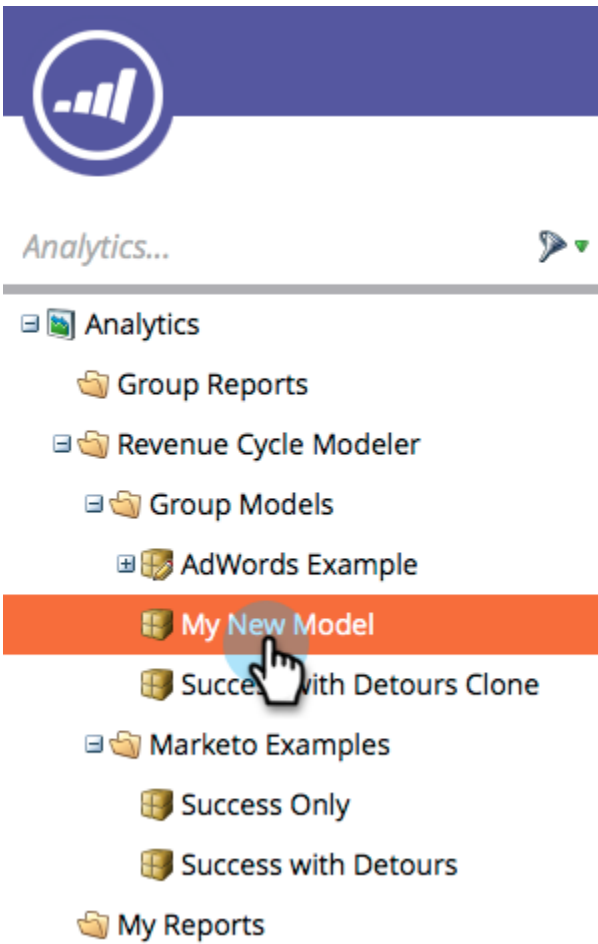

### Caution

If you unapprove your model all of your people are removed from the model, and their history in the model is deleted!

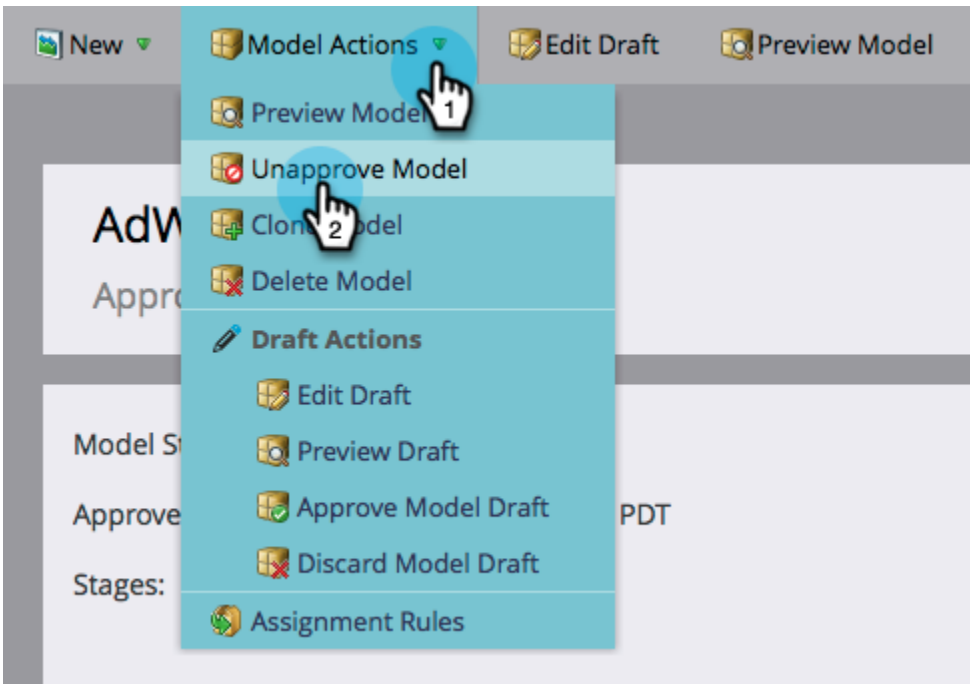

1. Go to the **Analytics** area.

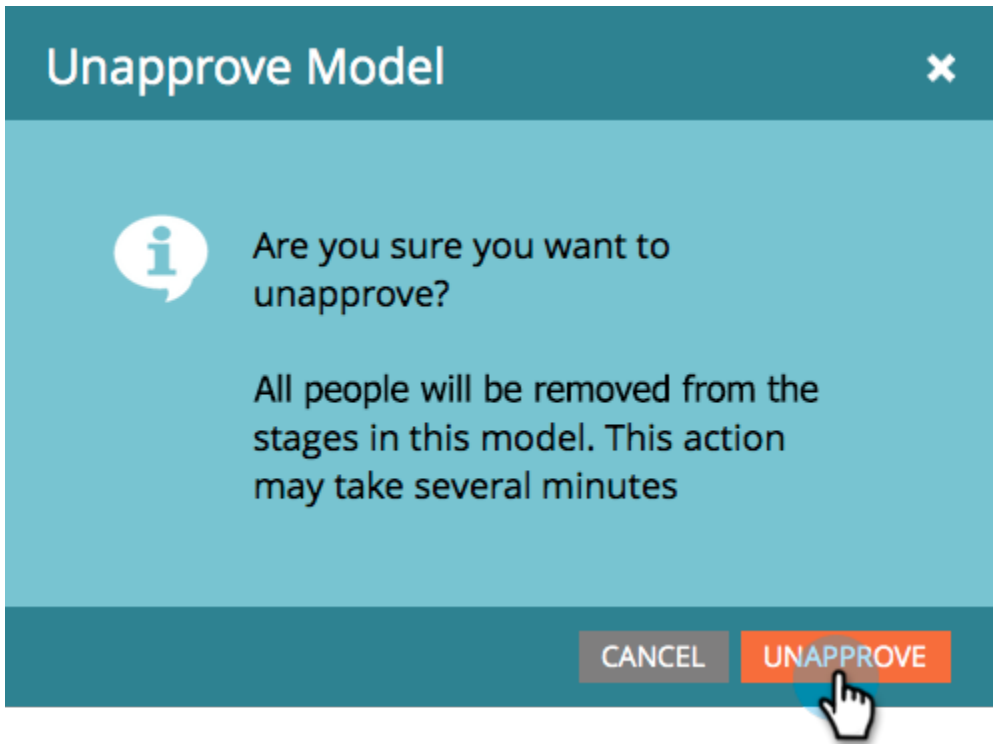

2. Select a model from the tree.

3. Click the **Model Actions** menu and choose **Unapprove Model**.

4. In the dialog that appears, click **Unapprove Model**.

Congrats! Your model is now unapproved.

## Caution

Unapproving a model removes all your people from the model, and removes their history in the model from the database.
