

Enable Call Recording

As an admin you can enable call recording for your Sales Connect calls. Recording your team's calls can be a great way to coach your sales reps on the best calling practices.

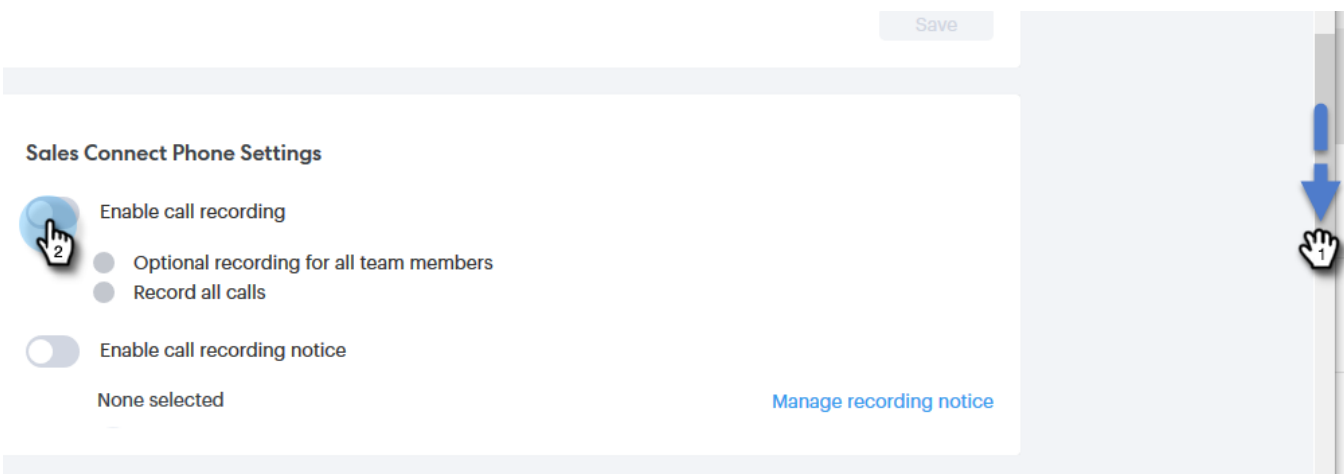

1. Click the Settings icon and select **Settings**.

2. Under Admin Settings, click **General**.

3. Scroll down to Sales Connect Phone Settings and select the **Enable call recording** toggle.

4. If you want to give your sellers the ability to enable or disable call recording for themselves, click **Optional recording for all team members**. If you want all calls recorded automatically, click **Record all calls**.

Sales Connect Phone Settings

- Enable call recording
- Optional recording for all team members
- Record all calls
- Enable call recording notice
